Hidden Doors of Zurich Walking Tour

During the walk, participants will gain a unique perspective on how the city has developed over time. The tour is guided by **Hans-Christian Rufer**, an architect and urban planner of the city of Zurich. Participants will explore old and modern city models, the remnants of the ancient Roman castle, a medieval waste ditch passage, and, enhanced by AR, the prehistoric stilt houses once found on Lake Zurich.

After this walking tour was already offered in 2023, we are organizing it again to give even more Young SECA members the chance to participate.
