Impact deep dive over lunch Private Equity & Venture Capital GP & LP perspectives

This event, organized by the SECA in cooperation with **Phineo, Nixdorf Kapital AG, LGT Capital Partners, Blue Earth, CHI Impact Capital & Fund, Emerald Ventures, and asc impact**, aims at managers and decision-makers in the investment sector, family offices, insurance firms, and pension funds.

Impact Venture Capital (VC) and Private Equity (PE) have never been more relevant. They offer a fresh perspective on investments and enable a new way of investing. At the same time, impact funds can now deliver returns that rival traditional funds.

At this event, we will examine how LPs and GPs in impact VCs and PEs operate, make decisions, and share insights. What do impact-focused limited partners seek? What challenges, processes, and investment criteria are essential for impact VCs?

Key questions of the event:

Impact-focused investors - Limited Partner (LP) perspective

- How do you determine impact criteria for selecting Impact VCs?
- How can Limited Partners assess the ESG/ impact readiness of General Partners (GP)?
- What are the particularities of the Decision-Making process? What are practical examples?

Impact Venture Capital (GP perspective)

- How do you set up an impact fund?
- What are the underlying criteria, ESG processes, and regulatory requirements?
- How does an impact GP work regarding Team, economics, deal flow, and selection processes?
- What are practical examples of investments made?
